—The preliminary examination of Johnson Goree and Jas. Rauls, who were charged with having entered the residence of W. E. Moore, destroying his household goods and carrying away some provisions, was had before Squire Bowman Friday. They proved an alibi, and were dismissed. Mr. Moore is a poor man and someone has maliciously wronged him, and the ones who are guilty of the mean act should receive that punishment which they deserve.

—The American laborer in the most highly protected industries goes upon a strike against the lowering of his wages, wearing a cap taxed 50 per cent, a shirt taxed 80 per cent, and a suit of clothes taxed 100 per cent. He talks the situation over with his wife, and until the sheriff distrains on him for his rent he rests his feet, wearing shoes taxed 25 per cent, upon a carpet taxed 50 per cent. He cuts the bacon produced by the unprotected farmer with a knife taxed 100 per cent, and if his wife cries over their prospects she wipes her eyes with a handkerchief taxed 55 per cent. If she does not persuade him to go back to work at lower wages his place is supplied by the foreign pauper labor of Bohemia or Poland, and he has leisure to reflect on how protection helps him.—Baltimore News.

Nothing is more able than a train of thought concerning the inequality of fortune. There is no whole remedy. Besides a great deal depends upon the point of view. The baby heir to \$15,000,000 may be destined to a life of suffering and disappointment. On the other hand, the child born in a laborer's cabin may be one of our future presidents, or may enjoy the fruits of success in some other position. A man may go through life as a laborer and yet be respected, self-respecting, living comfortably and enjoy existence from first to last.—Atlanta Constitution.
